

Should Sugar Beet Farmers Apply Micronutrients and Secondary Macronutrients is the title of an article Dr. Dan Kaiser, University of Minnesota Nutrient Specialist recently posted on the Minnesota Crop E-News regarding sugar beet fertility. The article is based on research Dr. Kaiser did in cooperation with Southern Minnesota Beet Sugar Cooperative in our growing area. Portions of this work were funded by the Agricultural Fertilizer Research and Education Council and the Sugar Beet Research and Education Board of Minnesota and North Dakota. The article can be accessed by clicking on the following link:
