

## Glyphosate Rates for RoundUp Ready Sugarbeets

Glyphosate Product lbs. acid equivalent / gallon	Maximum Single application	Maximum Total Product	Maximum Single application	Maximum Total Product	Maximum Total Product
	<u>emerge - 8 leaf</u>	<u>emerge - 8 leaf</u>	<u>8 leaf - harvest</u>	<u>8 leaf - harvest</u>	<u>emerge - harvest</u>
3 lb. a.e. / gallon	48 oz.	80 oz.	32 oz.	64 oz.	144 oz.
3.75 lb. a.e. / gallon	38 oz.	67 oz.	26 oz.	53 oz.	120 oz.
4.5 lb. a.e. / gallon	32 oz.	56 oz.	22 oz.	44 oz.	100 oz.

\* Always follow the label instructions for the glyphosate product you are using. Different adjuvant additions may be required for different glyphosate formulations.

\*\* All glyphosate products have a 30 day pre-harvest interval for RoundUp Ready sugarbeets.

\*\*\* Monsanto does not recommend mixing insecticides or fungicides with their RoundUp products. Research conducted at SMBSC has not shown any detrimental effects from mixing fungicides with glyphosate.

\*\*\*\* Rate information taken from product labels for the different acid equivalent formulations.
